Rev. Fr. N. Pirulli Robbed Of \$50 In Own Office -Phone Wires Cut

Quiescent for the last two weeks, crime in Lawrence county blazed out afresh on Sunday night when two hold-up men robbed Fr. N. Pirulli of Hillsville of fifty dollars in cash, forced his housekeeper to bring the Sunday collection envelopes of the St. Lawrence church and of the Italian church in Bessemer to them, cut the telephone wires into the parsonage and then escaped.

The robbery was one of the boldest crimes committed in this county in years. Between 8 and 8:30 o'clock Sunday evening, the doorbell of the parish home rang. The housekeeper answered it and two men asked if Fr. Pirulli was at home. She asked them to come into the office and wait for him.

Stick Guns On Him As Fr. Pirulli walked into the office to see the men, they arose and drawing guns ordered him to hand over what money he had. He had about \$50 in his pockets which they (Continued On Page Two)

THE CHEERFUL MR. BABSON

In the course of an interesting public address the other day, Mr. Roger Babson gave out more sunshine and good cheer than we have had in this country for a long time. There were no "ifs" or "buts" about his cheerful predictions for the future. He declared that prosperity was going to return "in spite of anything which governments and bankers can do to prevent it." He brushed aside the argument that the machine age was the cause of the depression, and said that to offer unemployment was a crime against the American standard of living.

Mr. Babson gave four chief reasons for his belief in the coming The cost of trinkets given away of good times. The first of these was the change of heart that is taking place with the people of America. "The revival of righteousness," he declared, "is laying the foundation for a new period of prosperity."

His second point was that the business of deflation has largely been completed. The only remaining factor to be deflated is in connection with debts and taxes. "We are now on the verge of a radical reduction in all fixed charges from personal mortgages to international debts."

His third argument was that consumption is today exceeding production. "The depression, like a fever, is developing its own antidote and will cure itself."

The fourth reason was that "idle funds ultimately burn holes in people's pockets." He bases this on the assertion that there are more idle funds in the United States today than ever before in our history.

There is more than a modicum of truth in these assertions. In spite of the extent of unemployment and the slowness of collections, there is a better feeling among the people now than at any time since the depression began. This is not false optimism; it is based on sound information. It may be conceded that this winter is going to be a hard one en by the amnesia bloc."—The De- cried, "is the end! Nearly everyone feels that this is a temporary state of affairs, which is sure to be improved, if not cured, be diminished by the announcement before the end of next year.

In the meantime it is a mightly good thing for everyone who can to take a cheerful view of life. The darkest hour is always before the dawn; and the dawn is sure to come again as it always has in the past.

Found Not Guilty In Chicken Thefts

Verdict In Cases Of Dean Rutter And Clarence Webster, Is Returned

After being in the jury room from Saturday forenoon until early Sunday morning, the jury agreed in the case of Dean Rutter and Clarence Webster, charged with the larceny of chickens from C. C. Wilson of Perry township. In the verdict returned to Judge R. L. Hildebrand at county court this morning the defendants were found "not guilty."

The case was one in which James Rutter had turned state's evidence after entering a plea of guilty. He testified that Dean Rutter, his brother and Clarence Webster, had accompanied him on the night that Wilson's chicken coop was robbed, although he admitted that he had gone into the coop after the chick-

Dean Rutter and Webster denied they had been with Jas. Rutter saying that they had remained at the Mont Rutter farm while James secured the chickens. Four of the chickens were killed to provide a dinner for the party, and the other

New Castle High Basketball Team Will Play Union High Tomorrow

-Coach Bridenbaugh

Night

Stand Pat On Lineup

New Castle high and Union high will play basketball at George Washington junior high gym floor Tuesday evening at eight o'clock. The two local schools have hit upon a happy thought in the playing of a pre-season game. The game, while only for "warming up" pur-poses, strikes popular favor. It will give the coaches of both teams a chance to look over their material for the year.

Coach Philip H. Bridenbaugh will more than likely stand pat on the line-up that faced Pittsburgh South High last week. The work of Uram and Teplica at the forwards was all that could be expected, and while they were not in mid-season form, they played fine basketball. Reiber Two Teams Deadlocked For and Kominic will take care of the guard posts. The center job is a toss-up, with Fred Shellogg and Dick McIlwaine fighting it out.

Union Hopeful Union, high with a victory over Wampum High on the right side of the register, will try for another tackle their bigger and more experienced foes, New Castle High. Coach Boyd has a small, wiry team this year, but they lack experience Sniezek is the only veteran on the

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

Back in July and August the Slippery Rock Creek offered a retreat against the sultry weather. The hemlocks and spruces hung down over the water, like an emerald pall, and seldom did the sun ever break through. Out there there was cool weather, comfort, and surcease from the heat waves that bounced from the city streets into your face.

The same Slippery Rock offers plenty of cool weather now, but few there are who want it any cooler of city assessor's office, \$81 per than it is in the city. The hemlocks and spruces still hang down over the water bed, but they look down at a ribbon of ice.

There's a beauty about it this winter, a sort of frozen beauty that doesn't seem to bid anyone to stay long, but a beauty nevertheless. It's the time of the year when the confiers get their inning. In the summer when the maples and oaks and beeches are out in full leaf, the hemlocks and spruces are just a part of the color scheme

In the fall when the leafy trees put on their rainbow raiment the evergreens act as a background to show off the bizarre garb of their neighbors, but in December when the leafy ones are bare, then the evergreens get their opportunity to stand out as the only thing in the forest that keeps the vigil the year

And early in the morning, this morning for example, there is a wraith of frosty mist that hangs low over the creek, looking at a distance for all the world like steam over a cauldron. But this particular cauldron has its icy lid on.

The Christmas decorations are beginning to make their appearance slowly.
